EFFICIENCY EVOLVED.

Our new user-friendly design with "Rapid Move Technology" allows QuickSort to process significantly more clothes per hour than our competition. The simple yet efficient design will win you over from much more complicated and expensive fully automated systems. If saving hundreds of dollars per month in labor cost and up to $100,000 in upfront cost sounds good, call us to learn how you can utilize QuickSort to reduce labor cost and improve accuracy.

INTUITIVE DESIGN that redefines dependability, efficiency, reliability and value.

CUSTOM SOFTWARE makes assembly easier and more efficient as it integrates with and enhances your point of sale system.

STANDARD SIZES AVAILABLE 10', 14' and 18' layout or custom conveyor to meet your specification.

SYSTEM INCLUDES: computer, conveyor, touch screen monitor, barcode scanner and invoice printer.
